

Operation 1325:s kontakt Isha L'Isha kommenterar Gazakonflikten

”De som utövade sin rättighet att protestera konfronterades med militär”

Vår kontakt – organisationen Isha L'Isha – Haifa feministcenter – har kommenterat den senaste utvecklingen runt fredsflottan.

Organisationen vill i sitt uttalande visa sitt stöd ”speciellt till dem som utövade sin rättighet att protestera mot en skandalös orättvisa, och som konfronterades med en militärattack”.

Isha L'Isha fortsätter: ”vi uppmanar kvinnor och män i det israeliska samhället att stå emot attacken på de mest basala mänskliga värderingar. Dela med er av budskapet att attacken mot fredsflottan är en attack mot mig. Gazabelägringen utsätter oss alla för fara.”

Statement of Isha L'Isha - Haifa Feminist Center

We, the women of Isha L'Isha – Haifa Feminist Center, express deep shock at the continuing and deteriorating consequences of the siege on Gaza. We express our solidarity with women peace activists who acted to break the inhuman siege on women, children and men; a siege that has been preventing basic human freedoms, health services and essential materials.

We extend our support to our sisters in the feminist movement, especially those who went out to exercise their right to protest against an outrageous injustice, and found themselves facing a military attack that was a result of a violent state policy.

We call on women and men in Israeli society to resist the assault on the most basic human values, and to join our call – the attack on the peace flotilla is an attack on me. The siege on Gaza endangers us all.

Isha L'Isha – Haifa Feminist Center is a multi-cultural feminist collective established in 1983. Our aim is to bring about social change by promoting values of equal rights and equal opportunities for all women; eradicating discrimination, violence and oppression of women; and fostering solidarity among women. tatement of Isha L'Isha - Haifa Feminist Center
